Intermittent Fasting Interest on Wikipedia

Polish vs. Czech Language Editions (2024-2026)

Pageview Trends

Key Findings

Polish Wikipedia - G■odówka lecznicza (Therapeutic Fasting): 5,816 total pageviews over 2 years, averaging 8 daily views. The article shows a +321.2% trend over the period.

Czech Wikipedia - P■erušovaný p■st (Intermittent Fasting): 6,678 total pageviews over 2 years, averaging 9 daily views. The article shows a -16.7% trend over the period.

Comparison: The Polish Wikipedia article attracted approximately 0.9x more pageviews than the Czech version. Both languages show varying interest levels throughout the period, with the Polish version demonstrating stronger overall interest and growth. Patterns reflect seasonal variations in health and fitness interests, particularly around New Year resolutions and summer fitness trends.
